

The Battle of Sicily: How the Allies Lost Their Chance for Total Victory (Stackpole Military History Series)

The campaign for Sicily from the Axis point of view Reassesses the German Army's performance Details about German commanders who have been neglected by historians In July 1943 the Allies launched a massive amphibious assault on Sicily. The invasion proved successful, bringing fame to American Gen. George S. Patton and British Gen. Bernard Montgomery, whose race to Messina was immortalized in the movie Patton. But according to Mitcham and Stauffenberg, the Allies lost a significant opportunity for total victory when the Germans mounted a brilliant defense. With only 4 divisions, the Germans held off the invaders for 38 days and then escaped, almost entirely intact, to mainland Italy, dooming the Allies to a prolonged battle of attrition up the Italian peninsula.
