

Uniting Sex, Self and Spirit : Let the Body by Your Guide to New Consciousness and Deeper Spirituality in a Changing Age

This prophetic work claims we carry in our own bodies, male and female, an accurate compass guiding humankind toward a spiritual rebirth of civilization. Dr. Haddon shows how our own bodies teach us what we need to know as individuals and as a culture to accomplish our transition into this new millennium. As practical as it is visionary, this guide to the next turning point in human evolution offers examples and exercises supporting personal ventures into new spiritual experience. Georg Feuerstein says in his Introduction, This visionary book boldly leaps over established boundaries...straight to the heart of our modern malaise. It helps us understand the grammar of our civilization: how we experience ourselves as men and women, and how that experience shapes our thinking about everything including our conception of the Divine. Index. Illustrated. 263 pp.
