

The Valley of Democracy (Classic Reprint)

Excerpt from The Valley of Democracy
In the reprintings of a book of this character it would be possible to revise and rewrite in such manner as to conceal the errors or misjudgments of the author. It seems, however, more honest to permit these impressions to stand practically as they were written, with only a few minor corrections. It was my aim to make note of conditions, tendencies, and needs in the Valley of Democracy, and the conclusion of the war has affected my point of view with reference to these matters very little. The first months of the present year have been so crowded with incidents affecting the whole world that we recall with difficulty the events of only a few years ago. We have met repeated crises with an inspiring exhibition of unity and courage that should hearten us for the new tasks of readjustment that press for attention, and for the problems of self-government that are without end.
