

Essays, Critical and Political, Vol. 1 (Classic Reprint)

Excerpt from Essays, Critical and Political, Vol. 1 The essays here collected were written many years ago, but they are concerned with matters - such as the merits of great writers - which never grow old. It is on that ground I have thought it worth while reprinting them. In each case I have given the date of the earlier publication that any of their contemporary references may be understood. The prisoner who was asked if he had anything to say why sentence should not be passed on him for the crime of which he had been convicted, said that he hoped his lordship would take into consideration the youth of his counsel. It would be foolish to claim that these essays were early essays, and therefore entitled to clement criticism. The judgments expressed were the opinions of a younger man than the writer of this preface, as the dates frequently show, but although the latter might alter some of the criticisms, he on the whole agrees with these more youthful utterances. He has to thank the manager of the Times for his permission to reproduce two of the essays contributed to its columns.
