

Families in Global and Multicultural Perspective

The Second Edition of Families in Global and Multicultural Perspective travels across geographic, cultural, and historical boundaries to explore the diversity of the worlds families?in family structure, processes, history, and social and environmental contexts. Editors Bron B. Ingoldsby and Suzanna D. Smith examine a full range of topics including family origin and universality, family functions, marital structure, kinship rules, comparative research methods, family development, marriage adjustment, parenting, divorce, and aging. This comprehensive text increases students recognition of and respect for cultural diversity as it influences family life.
