

Archaeology in Jinan (Hardbacked) (Chinese Edition)

This book is an archaeological collection about Jinan region including 35 reports about archaeological excavation and research since the founding in December 1997, 20 papers about ancient building, ancient stone curving survey and study, and 6 papers about comprehensive research of cultural relics. In the form of memorabilia this book records the main work in the past 15 years, and in the form of schematic diagram, it marks out the excavation projects in city archaeology. It has reference value for researching the history, culture and religion in Jinan region.
