

Born to Survive - Will to Live

Accident-prone... you might wonder? Not really. But Anthony Pasqualetti is acutely aware that the incidents in his long and fulfilling life are rich with close-calls, death-defying thrills, and uncanny acts of bravery and singular episodes where any one man could have easily succumbed or chose to flee. Anthony G. Pasqualetti chose to take on his life lessons with integrity, honesty and clarity. Each close call made him wonder what the Good Lord had in store for him. Yet each brush with death confirmed his lust for life and his ability to work diligently through adversity. He considers himself a common man found in uncommon circumstances. He always tries to deal with whatever comes along as a test and a process by which he would grow stronger and more resilient. Tony is a man who doesn't see why people are amazed that he has lived to the age of 80, since any ten men should have given up when faced with so many personal perils. This story is told completely from the author's perspective. A simple tale in complexity; a string of diverse dilemmas handled with pragmatic certainty --- Tony is somewhat amazed to find out that he was ---born to survive with a will to live.
