

# Bloodborne Pathogens Guidebook

This in-depth look at Bloodborne Pathogens, with information on OSHA and JCAHO practices for both healthcare workers and other types of workers, starts by covering OSHA issues such as requirements, work practices, and records. It then gives extensive coverage of AIDS, Hepatitis B, Hepatitis C, and other diseases. Prevention and treatment are covered thoroughly in an easy to understand manner. 88 pages in the guidebook include a convenient reprint of OSHA regulations. Approved for national nursing contact hours--requires purchase of separate test. Those readers who wish to have an accompanying program with video and interactivity should also purchase the CD version.
