

## Proceedings of the Fourth Symposium of the Hellenic Society for Archaeometry (British Archaeological Reports British Series)

This large volume contains 86 papers selected from papers given at the 2003 conference. Papers range from the broadly theoretical, to the discussion of specific techniques and to practical examples of their application. Themes include dating, geophysics, geoarchaeology, palaeodiet, palaeoanthropology, material characterisation techniques, ceramics, glass, stone, mortars, metals, painting media, organics and conservation.
